METHODOLOGY

This snapshot reproduces the current public A–Z directory. It intentionally separates current custody, former/released, bail/active-case, documented disappearance, deceased former-prisoner, and present-status-under-review categories. A sentence end date alone is not treated as proof of release. “Present status under review” is not converted into a current-custody or former-prisoner classification without evidence. The directory is not claimed to be exhaustive and does not hard-code a global count.

This page is the All Statuses A–Z master directory. It intentionally combines current, former, bail/active-case and under-review records, with each person visibly labeled.

Directory coverage is expanding. Use the A–Z family-name index below to jump directly to a surname section. This public directory lists mainland China political-prisoner and detention-history records currently verified or under review. It is not yet exhaustive; additional names are added as identity, custody status, and case history are verified.

All reviewed status records are combined here. Current custody, former/released, bail/active-case and status-under-review records appear together in this master A–Z view. Counts are not hard-coded here; status totals are maintained from the underlying person records.

Status key: Current custody · Former/released · Bail/active case · Historical case — present status under review

A–Z by family name / surname

A · B · C · D · E · F · G · H · I · J · K · L · M · N · O · P · Q · R · S · T · U · V · W · X · Y · Z

Sort rule: Chinese names are indexed by family name/surname, which normally appears first in the Romanized form used here (for example, Wang Bingzhang under W and Zhang Zhan under Z). For names from traditions that do not use a conventional family-name structure, the directory uses the first displayed Romanized name rather than inventing a surname. Letters without current records remain visible but are not clickable.

About coverage and status

Current custody, former imprisonment, bail, disappearance, exile, death, and other non-custodial restrictions are kept distinct. A sentence end date alone is not treated as proof of release. Records marked Historical case — present status under review are included so readers can see the breadth of the archive without presenting an unresolved case as a verified current or former prisoner classification.
